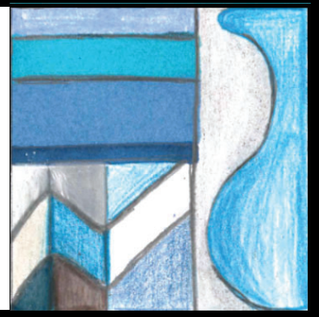
# The Food Blogger



## Design Statement

The design of this kitchen incorporates the use of environmentally friendly materials while still addressing the current needs of a blogger as well as their future family's growing needs. Organic materials will be integrated into the design, showcasing modern technological amenities and features.

### CHALLENGES:

The existing space is an empty shell.

A kitchen, of 20' x 20' minimum is an absolute must.

The client is very earth conscious, and as such
- Recycled Materials
- Solar Energy

are requirements for designing the space.

-Kitchen - Dining Area - Living Room - Office -

### THE DESIGN

- Open, Open, Open. Walls will be minimal in this space.
- Defined spaces will be identified by transitional furnishings and patterns.
- The kitchen will be the focal point of the home.
- A herb garden and compost area will be built into the kitchen.
- Gray water filtration systems will be incorporated into bathrooms to reduce water usage.
- Reclaimed and recycled items will be used in flooring, fixtures, and furniture.

### THE AESTHETICS:

- This space will have an easy going feel - it will be a mountain-side, beachcombers paradise.
- The design style is reminiscent of a charming cottage that could be found on the beach or in the mountains.
- Color palette of various creamy whites, light grays, sandy browns, blue accents and an inky blue as well as a dark chocolate brown are all incorporated to create an airy and inviting space.
- Coastal yet rustic furnishings.
- Seaside accessories.
- Richly textured woods.
- Thick plush carpets and fabric.
- Chef-grade stainless steel appliances.

### THE MUST HAVES:

- Light - Lots of Light, Natural, Indirect, and Task Lighting
- Hygge Sensibility
- Child and Pet Friendly Surfaces
- Travel Souvenir Display - Fossils, sea shells and sea glass.
